Data Resources for District Attorney

The Pennsylvania Justice Network (JNET) provides authorized users with access to public safety and criminal justice information from numerous federal, state and local sources. Access to specific data sources is dependent upon your job function and permissions within JNET. The following applications are available to most district attorney employees.

JNET Searches

- **Address Search** - The JNET Address Search allows authorized users to simultaneously query address information from up to 11 distinct repositories
- **Photo Search -** Returns up to five photographs from the both PennDOT Driver's Photo/History application and WebCPIN
- **Warrant Search -** Returns active AOPC, Domestic Relations and PSP-CLEAN/NCIC warrants through one inquiry
- **Federated Search** - Provides AOPC Docket information, WebCPIN photos, PBPP and county Probation/Parole information, DOC and county jail information, PSP criminal history, and PCS sentencing information through one interface
- **Background Search** - Searches Pennsylvania State Police (PSP) criminal history records, Administrative Office of Pennsylvania, Courts (AOPC), and Department of Human Services (DHS) Domestic Relations warrants through a single inquiry
