

## Resources for Criminal History Users

The Pennsylvania Justice Network (JNET) provides authorized users with access to public safety and criminal justice information from numerous federal, state and local sources. Access to specific data sources is dependent upon your Agency Type and individual Security Role within JNET.

The following data resources are available to *most* Criminal History Users *upon approval of Criminal History access*.

**Criminal History User (CH)** – Provides the highest level of access to criminal history records that JNET can provide. Users requesting this role must work for a criminal justice agency as defined by the Criminal History Records Information Act (CHRIA) and require access to criminal history records as part of their official duties conducted in the administration of criminal justice. Criminal Justice agencies are defined by CHRIA in Section 9102. This access requires a fingerprint-based criminal history background check

### Applications Menu

- **Court Information**
  - Domestic Relations Warrants
